Referral Program - Terms & Conditions

1. Eligibility: The referral program is open to all active clients of Kyrrios Fx Advisory. Referrals are eligible for commission once the referred client successfully starts trading under Kyrrios Fx Advisory.

2. Referral Structure:

- Stage 1 (Direct Referral): 20% of Kyrrios Fx Advisory's profit share.
- Stage 2: 10% of Kyrrios Fx Advisory's profit share.
- Stage 3: 10% of Kyrrios Fx Advisory's profit share.

The commission is based on the company's profit share from the referred client's trading activity.

3. Referral Commission Calculation: Commissions are calculated from the company's profit share after the trading week ends. Referrers will receive their commissions after the referred client has paid Kyrrios Fx Advisory's profit share.

4. Payment of Commissions: Once Kyrrios Fx Advisory receives the profit share from the client (on Monday), commissions will be credited to the referrer's wallet on Wednesday. Referrers can request a withdrawal on Thursday and Friday through their Member Panel access. The payout will be transferred to the referrer's account by the following Monday.

5. Conditions for Valid Referrals: A referral is valid when the referred client completes their account setup, provides the necessary MT5 credentials, and starts trading. Multiple referrals from the same referrer are allowed, but commissions are based on each referred client's trading profits.

6. Non-Eligible Referrals: Self-referrals are not allowed. If a referred client terminates their agreement with Kyrrios Fx Advisory before trading starts, no commission will be paid.

7. Referral Activity Monitoring: Kyrrios Fx Advisory will monitor referral activities. Any misuse, fraud, or violation of these terms will result in termination of referral benefits.

8. Strict Policy: Kyrrios Fx Advisory does not allow any referrer to collect money directly from clients under any circumstances. If this happens, we are not responsible for any issues or losses. Kyrrios Fx Advisory never collects money from clients at any point. Our only earnings come from the profit share based on trading profits made in the client's account.

9. Confidentiality: Referrers must keep all information related to referred clients confidential and

are not allowed to share any personal or trading information.

10. Changes to the Referral Program: Kyrios Fx Advisory reserves the right to change or end the referral program at any time. Changes will be communicated in advance, and continued participation means you accept the new terms.

11. Termination of Referral Program: Kyrios Fx Advisory may end a referrer's participation if these terms are violated or if referral activity harms the company's interests.

By proceeding, you have accepted the terms and conditions.
